

WISDMLABS

Job Description - Junior Software Engineer

Location: Remote

Type: Full-Time

Experience Level: Entry-Level

About Us: Welcome to Wisdmlabs, where innovation meets excellence! We are a dynamic tech company dedicated to transforming business challenges into exceptional technical solutions. If you're a fresh graduate passionate about coding and eager to make an impact, this is the place for you. Join us and be part of a team that's shaping the future with cutting-edge technologies.

Job Description: As a Junior Software Engineer at Wisdmlabs, you'll dive into a collaborative and fast-paced environment where your ideas and skills will thrive. You will work closely with our experienced developers and business analysts to understand complex business problems and create top-notch technical solutions. Your primary focus will be on building and maintaining web applications using modern technologies.

Key Responsibilities:

- Collaborate with cross-functional teams to understand business requirements and translate them into technical solutions.
- Develop and maintain web applications using Wordpress, JavaScript and React.
- Customize and manage WordPress sites to enhance functionality and user experience.
- Work with cloud technologies, primarily AWS and GCP, to deploy and manage applications.
- Write clean, efficient, and well-documented code.
- Participate in code reviews and contribute to team best practices.
- Continuously learn and adapt to new technologies and industry trends.

Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proficiency in JavaScript and familiarity with React.
- Basic knowledge of WordPress development.
- Understanding of cloud services, preferably AWS and GCP.
- Strong problem-solving skills and the ability to understand and address business challenges.
- Excellent communication skills and a collaborative mindset.
- Eagerness to learn and grow in a fast-paced environment.

Preferred Qualifications:

- Internship or project experience with JavaScript, React, WordPress, AWS, or GCP.
- Familiarity with agile development methodologies.
- Knowledge of version control systems (e.g., Git).

Why Join Us?

- Opportunity to work on exciting projects with a talented team.
- Continuous learning and professional development opportunities.
- Friendly and inclusive work environment.
- Competitive salary and benefits package.
- Chance to make a real impact and grow your career.

The Money Talk:

Training Days (6 months): INR 15,000/month

After You Wow Us: INR 5,00,000 to 6,50,000 per annum (post confirmation)

Join us in revolutionizing the tech industry, one brilliant solution at a time!
