PROFESSIONAL SUMMARY

Motivated and passionate final-year student specializing in web development. Demonstrates good problem-solving abilities and a fervent commitment to crafting innovative web applications. Proficient in modern web technologies and frameworks, dedicated to advancing expertise in creating dynamic and responsive web applications.

SKILLS

- **Programming Languages:** C++
- **Web Development:** React, JavaScript , HTML, CSS
- **Databases:** MySQL
- **Other Skills:** Team Player, Problem Solver

EDUCATION

Bachelor of Engineering (Computer Science)   *Dec 2021 -Present*
Pimpri Chinchwad College of Engineering and Research, Ravet   **CGPA 8.8/10**

Class 12th - HSC   *May 2020 – Aug 2021*
C.E.S. Prerana Junior College, Nigdi   **Percentage – 84.83%**

Class 10th - SSC   *May 2018 – June 2019*
C.E.S. Prerana High School, Nigdi   **Percentage – 92.20%**

PROJECTS

News Teller Application   *May 2024*
- Built a real-time news application using NewsAPI and React.
- Implemented various news categories for better content organization.
- Added dark mode for enhanced user experience using React hooks.
- Technologies Used - ReactJs, Javascript, HTML, CSS.

Note Pad Application   *July 2024*
- Developed a dynamic Notepad application using React.js, HTML, CSS, and JavaScript, enabling users to perform Create, Read, Update, Delete (CRUD) operations on personalized notes.
- Utilized MongoDB for storing user data and notes, created data models for users and notes, and implemented authentication using JWT tokens and bcrypt.
- Managed HTTP requests and server-client communication using the Fetch API.
- Designed a responsive and intuitive user interface for real-time note management
- Implemented robust authentication and authorization mechanisms, ensured efficient state management for real-time updates, and delivered a fully functional, secure Notepad application.
- Technologies Used: HTML, CSS, React.js, JavaScript, MongoDB.

Text Utils Application   *Feb 2024*
- Developed a dynamic single-page application for performing various text operations using React.
- Implemented features such as case conversion, removing extra spaces, copying text, display detailed text statistics.
- Designed the application to provide real-time feedback on text changes.
- Technologies Used - ReactJs, Javascript, HTML, CSS.

CODING PLATFORMS

- **LeetCode -** leetcode.com/u/pranay
- **CodeChef -** codechef.com/users/pranay

HOBBIES

- Photography
- . Playing Volleyball
